Subject: Groundwater Allocation Rules

Some people who received this message don't often get email from ggsabba@gmail.com. [Learn why this is important](#)

I support the proposals by the OWRD to make Oregon's groundwater more stable in light of current and ongoing climate change and the previous drain on Oregon groundwater from over issuing pumping permits. Protection of streams, rivers, and springs in Oregon depends on sable groundwater into the future. Fresh water is a valuable and limited asset and the utmost care should be taken to assure that it is monitored, sustained and carefully managed.
